

Oscar Alexander Chanax

Senior Software Engineer — Technical Leadership

Quetzaltenango, Guatemala • ochanaxo@gmail.com • +(502) 5561 6246 • alexander-dev.com • [linkedin](https://www.linkedin.com/in/ochanaxo)

Technical leader with 5+ years in high-demand fintech. At Zigi App (Banco Industrial, 1.3M users, ~160K daily actives) I am the squad's lead backend developer: I own technical design of new services (HLD, ADRs), mentor developers, drive engineering standards and represent the team in architecture committees. Track record of raising team performance — direct mentoring, team-wide adoption of AI-assisted development, org-wide tech talks — with measurable product impact (+30% retention, -15% fraud losses, 0.93 Apdex). M.Sc. in Information Security (Cum Laude). Now seeking to formalize this experience in a Tech Lead role.

PROFESSIONAL EXPERIENCE

Zigi App — Banco Industrial

City, Guatemala

Senior Backend Developer

February 2026 – Present

- Lead backend developer of the squad: own technical definition of new core fintech services (HLD, ADRs) and drive their approval in architecture committees.
- Introduced AI-assisted development practices (context engineering) now adopted by the team, accelerating service delivery without sacrificing quality.
- Design and implement financial microservices (NestJS/TypeScript, Hexagonal Architecture,DDD, CQRS, event-driven on AWS: EventBridge, SQS/SNS, EKS) for 1.3M users and ~160K daily actives.
- Drive the squad's engineering standards: Clean Code, unit testing (Jest), security (AWS WAF, Lambda Authorizers) and shared libraries via Backstage to speed up time-to-market.

Senior Frontend Developer

February 2024 – February 2026

- Led the technical direction and architecture of the mobile frontend (React Native + MobX) within an 8-person squad, part of a ~100-person technology org.
- Mentored the squad's 2 frontend developers (code reviews, pairing, standards) and delivered org-wide tech talks: React Hook Form in React Native, local dev tooling, AI context engineering.
- Represented the squad in architecture committees, evaluating stacks and patterns for new modules with a focus on long-term maintainability.
- Delivered measurable product impact: user retention improved by up to 30% (MoEngage integration), 15% reduction in fraud-related operational losses (security protocols in critical flows), and a sustained 0.93 production Apdex for 1.3M users.

Ciancoder (GT) / Enapsys (MX)

Guatemala – Mexico

Full Stack Developer

February 2021 – February 2024

- Led the modernization of the procure-to-pay process for corporate clients, coordinating architecture decisions that reduced rework and infrastructure costs.
- Established quality standards through code reviews and mentoring of junior developers.
- Designed and deployed scalable APIs (NestJS, GraphQL) and data architectures (SQL, Redis) for high-volume processing.
-

Independent / Freelance Developer

Remote

Full Stack Developer

November 2020 – Present

- Manage the full lifecycle of web and mobile applications for international clients (Next.js, Python/Django, Flutter).
- Automate deployments with CI/CD pipelines on AWS and Digital Ocean, reducing feature delivery times.
- Advise on secure infrastructure and resilient architectures for complex business problems.

TECHNICAL SKILLS

Backend: TypeScript, Node.js, NestJS, GraphQL, REST, Python/Django, PHP

Architecture: Hexagonal Architecture, DDD, CQRS, Event-Driven, Microservices

Cloud & DevOps: AWS (EKS, EventBridge, SQS/SNS, API Gateway, WAF, Lambda), Docker, CI/CD (GitHub Actions), Digital Ocean, Nginx

Frontend & Mobile: React / React Native, Next.js, MobX, Redux, Flutter, Angular

Data: PostgreSQL, MySQL, Redis, MongoDB

Quality & Security: Jest (unit testing), Clean Code, application security, AWS WAF, Lambda Authorizers

Applied AI: AI-assisted development & context engineering (Claude Code and similar tooling)

Languages: Spanish (native), English (professional working proficiency, B2)

EDUCATION

M.Sc. in Information Security — Cum Laude

November 2023

Universidad Mariano Gálvez — Quetzaltenango, Guatemala

B.Sc. in Systems Engineering & Computer Science

November 2020

Universidad Mariano Gálvez — Quetzaltenango, Guatemala

CERTIFICATIONS

- AWS Certified Cloud Practitioner

December 2025
